

God Made the Earth and Sky

1. God made the earth and sky, He made all the seas,
He made the sun, He made the moon,
But he is bigger than these.
1. God made the little baby bird, and He made the tiny worm,
He made the flowers and the bumblebee,
Yet He is smaller than these.
2. God made me and you, 'Cause He loves us very much,
that's true,
Just look at you and me, we are big and small, you see,
So God must be big and small, too.
