

## **Objectives For First & Second Grade Class**

### **Teaching Materials (3 sets, 2-year):**

1. Relationship in God's Creation (23 Lessons)
2. Man in God's Creation (23 lessons)
3. Ten Commandments (23 Lessons)

### **Goal for the Materials:**

1. Understand that God has an arrangement. All the relationships of human beings, in society, in the family, and in the church, are arranged by God for a purpose. To know their proper place in the world and how their attitude should towards others in a way that pleases God and harmonizes with His Word. Eventually, what is their attitude toward God.
2. Impress the children that they're men and that they and everything about them are very special and important. This is because they were created in God's very own image and likeness; they were made just for Him. Body: help them to know how to take care of their body (parts of the body), to eat proper food. Soul: how to take care of their feelings. Spirit: help them to know and experience there is something inside of them that tells them what's right and what's not. All this needs to connect to their daily living life.
3. The Ten Commandments, the moral law, trains children's conscience in a very good way, help them to know their relationship with men and with God.

### **Classroom Practices:**

1. Encourage children to be in the class on time.
2. Discipline children to follow class rules and instructions.
3. Encourage all the children to pray in the meeting.
4. Encourage children to read the weekly verse everyday.
5. Build up a habit of bring their folder back and forth from home and meeting.
6. Let children clean their own area after craft and eating.
7. Teach children to care about others and help others

\*\*Home Practices:

Parents remind/help your kids about/on the above Classroom Practices.
